

Town of Rockport, Massachusetts Prime Farmland Soils

\$10.00

Key to Soils Data

Farmland Soils

-  All areas are prime farmland
-  Farmland of statewide importance
-  Farmland of unique importance

This Soil Survey Geographic (SSURGO) data base was produced by the U.S. Department of Agriculture, Natural Resources Conservation Service and cooperating agencies for the Soil Survey of Essex County, Massachusetts. The soils were mapped at a scale of 1:12,000 with a 3-acre minimum size delineation. Enlargement of these maps to scales greater than that at which they were originally mapped can cause misunderstanding of the detail of mapping. If enlarged, maps do not show the small areas of contrasting soil that could have been shown at a larger scale. The depicted soil boundaries and interpretations derived from them do not eliminate the need of onsite sampling, testing, and detailed study of specific sites for intensive uses. Thus, this map and its interpretations are intended for planning purposes only. Digital data files are periodically updated. Files are dated, and users are responsible for obtaining the latest version of the data.

This map was created by Rockport GIS. The information is provided as a reasonably accurate point of reference, but is not intended to represent authoritative location, and is not to be used for conveyances. The Town of Rockport shall not be held responsible for the accuracy or misuse of these data.
